Firepower: Lessons from the Great War

EM

Firepower Seminar Series Closing Remarks: Chair, Royal Australian Artillery Historical Company

Object:

Arrange and coordinate a seminar series of presentations on the history of Australian artillery and firepower during the Great War, from the Anzac Landings in April 1915 to the final Hindenburg Line breaches in October 1918.

Purpose:

Produce a comprehensive treatment of firepower and the role of Artillery during what is still considered one of the most globally significant conflicts of all time. The Series sought to reignite passion and interest in the profession of Artillery within the Australian Army, Defence and the wider public.
